

# home show

## Initial Planning:

- Set a budget
- Determine landscaping style/theme (modern, tropical, cottage, etc.)
- Draw up a design plan (hardscape and softscape elements)

## Site Preparation:

- Clear existing vegetation (trees, shrubs, etc.)
- Soil testing and preparation
- Drainage solutions (installing French drains, grading, etc.)

## Hardscaping:

- Install walkways, patios, and driveways
- Build retaining walls or garden borders
- Install lighting, irrigation systems, or water features

## Softscaping:

- Plant trees, shrubs, and flowers
- Lawn installation (sod or seeding)
- Mulching and soil amendments
- Fertilisation and watering setup

## Final Touches:

- Install outdoor furniture
- Set up garden tools and storage sheds
- Regular maintenance plan (mowing, trimming, watering)
