Planning & Budgeting:

- Set a realistic budget for the project
- Hire a contractor or specialist (e.g., roofer, window fitter)
- Finalise design plans for roof, cladding, and windows

Roofing & Siding:

- Inspect roof for damage and decide whether to repair or replace
- Choose roofing materials (e.g., tiles, slates, metal)
- Install new cladding or siding if needed (wood, vinyl, brick, etc.)
- Ensure proper insulation and sealing to prevent drafts

Windows & Doors:

- Replace old windows with energy-efficient models
- Install or repaint exterior doors (front, garage, etc.)

Final Inspection:

- Ensure exterior is weatherproof and secure
- Verify all permits and inspections are complete
- Final cleanup and touch-up
